

CURRICULUM VITAE

PERSONAL DATA

Name: Samuel, Awuro Sampuo
Address: Teak Street 12, Tse Addo, Accra, Ghana.
Telephone: +233 (0) 543822181/ WhatsApp: +233 (0) 205407410
E-mail: samuelawuro.rad@gmail.com
Status: A permanently Registered Diagnostic Radiographer with the Allied Health Professions Council and a member of the Ghana Society of Radiographers

Career Objective

- As a dedicated diagnostic radiographer with hands-on experience in **X-ray, CT, and MRI**, I am passionate about clinical practice and committed to continually enhancing my clinical skills to excel in radiography
-

Core Skills

Medical and Anatomical Skills

- Ability to interpret clinical information about clients, take X-rays of various body parts and strictly follow radiology safety protocols as well as review images for quality.
- Able to identify anatomy as requested on a clients' request forms and demonstrate confidence in the positioning of clients for procedures.

Mechanical Aptitude

- Ability to learn and relearn new technology as related to radiography practice
- Ability to adjust radiation exposure time and intensity in accordance with body habitus of clients to maximize image quality.

Interpersonal and Communication Skills

- Able to effectively, listen and communicate with clients in a manner that ensures safety, confidentiality and privacy.
- Able to explain procedures whilst reassuring client.

Observational and Analytical Skills

- Effective analysis of individual conditions presented by clients and establishes any need for urgent attention.
- Comparative assessment of requested procedures and findings to establish and recommend the need for alternative projections or modalities.

Teamwork

- Able to work in partnership with other members of the healthcare team

Education

2020 Bachelor of Science in Diagnostic Radiography, University of Ghana

2015 WASSCE, General Science, Nandom Secondary School, Nandom, UWR

Work Experience

Current Role First American Specialist Medical Center, Accra (CT, XRAY, MRI)

- With extensive expertise in conventional x-ray imaging, I adeptly capture and analyze diagnostic images to provide accurate assessments and guide patient care effectively.
- I lead a diverse array of computed tomography (CT) procedures, including advanced angiography techniques such as cerebral angiograms, aortograms, and extremity angiograms, ensuring precision and patient comfort throughout these procedures while leveraging cutting-edge technology to deliver comprehensive diagnostic insights.
- My proficiency extends to MRI imaging, where I skillfully perform intricate musculoskeletal and neurology procedures, employing a meticulous approach to ensure high-quality imaging results that support precise clinical evaluations and treatment planning.

Work Experience

October 2021 to August 2023: **Diagnostic radiographer (CT and Xray), Totalite Health Limited, Kumasi**

- Performed various unenhanced and contrast-enhanced CT examinations, including specialized imaging procedures such as

cerebral angiograms, pulmonary angiograms, carotid angiograms, renal angiograms, and aortograms, while assisting in CT-guided nerve block interventions.

- Conducted radiographic examinations for clients presenting to the department.
- Performed routine checks on equipment to establish maintenance needs.
- Demonstrated proficiency in peripheral venous access.

October 2020 to August 2021: National Service Personnel as Radiographer at Zabzugu District Hospital, Zabzugu, Northern Region

- Prepared and positioned clients for radiographic procedures
- Conducted radiographic examinations for clients requiring axial and appendicular radiographic procedures.
- Critiqued and wrote preliminary radiographic comments for physicians and medical practitioners.
- Executed quality control and quality assurance procedures on the Universal Delft X-ray machine with remote assistance from the engineering team.

Leadership Experience

March 2019 to February 2020: General Secretary, Society of Student Radiographers, 2020. University of Ghana

2019/2020 Academic Year: Course Representative for Diagnostic Radiography, Class of 2020, University of Ghana

Honors/Awards

April 2021: Akai House's Award for most promising male graduating student in Diagnostic Radiography, University of Ghana

March 2020: Bachelor's Degree in Diagnostic Radiography, University of Ghana

Career and Professional Development

July 2024: a. A virtual participant of Radiopaedia 2024 conference from July 22 to 26.

b. Virtual participant of a webinar: **MRI scanner parameter modification and Gadolinium delivery in adult and pediatric brain tumors** [verify [here](#)]

August 2024:

A participant of the **COMprehensive Neuroimaging aNalysis Experience In resource constraiNed settings, CONNExIN**
