

Dr. IBTISAM ASLAM

MR SCIENTIST | MR PHYSICIST | ELECTRICAL ENGINEER

✉ (+41) 779079357 | ✉ engr.ibtisam@gmail.com | 🏠 Geneva, Switzerland |  [LinkedIn](#) |  [Google Scholar](#) |  [ResearchGate](#)

PROFILE SUMMARY

- 5+ years of experience in advanced MR image acquisition, reconstruction, and analysis across cardiac, renal, and neuro imaging domains.
- Extensive hands-on expertise with Siemens 1.5T, 3T & 7T MR scanners including Prisma (VE11), Vida (XA50), and Terra.X (XA60).
- Proficient in advanced imaging and analysis software: CVI42, 3D Slicer, ANTs, FSL, and MRtrix3
- 10+ peer-reviewed journal articles and presented at 30+ high-impact conferences including ISMRM, ESMRMB, Elsevier, Springer, and PLOS ONE.
- Supervised and assisted multiple research projects in MR image reconstruction and analysis using both conventional and AI-based methods.
- Proficient in programming languages including MATLAB, Python (TensorFlow, keras etc), R, and Bash

EXPERTISE

MRI Protocol optimization | MR Safety | Cardiac MRI | Renal MRI | Neuro Imaging | Diffusion Imaging | MR Image Reconstruction | Deep Learning | Radiomics | Computer Vision | Digital Image Processing | Project management

TECHNICAL SKILLS

- **Programming:** MATLAB Programming, Python, R, Bash
- **Simulation Tools:** MATLAB, Anaconda, RStudio, Linux, High Frequency Structure Simulator (HFSS)
- **Clinical Tools:** Cardiovascular Imaging (CVI42), HOROS, FMRIB Software Library (FSL), MRtrix3, Advanced Normalization Tools (ANTs), 3D Slicer, ITK-Snap
- **Microsoft Office:** MS Word, Excel, PowerPoint, Publisher

PROFESSIONAL EXPERIENCE

Post-Doctoral Researcher | Radiology, CHUV (UNIL), Lausanne, CH | Memory Center, HUG (UNIGE), Geneva, CH |
Led advanced Diffusion Weighted Imaging (DWI) project at 7T MR to measure glymphatic flow in the human brain, including image acquisition, processing, and microstructural analysis. Also, responsible for volunteers' recruitment, scheduling for MRI, MR safety & Data acquisition (**May 2024 – present**) – 1.5years

Research Scientist | Radiology, HUG (UNIGE), Geneva, CH |

Led & Developed novel MR Image Acquisition optimized protocol and Reconstruction methods for Cardiac & Renal MRI; Develop novel methods to streamline and automate the analysis of allograft renal chronic kidney disease (CKD) patients. Also, I was responsible for CKD patients scheduling and scanning at 3T MR (both Cardiac & Renal), Data analysis and statistics (**March 2019 – April 2024**) – 5years

EDUCATION

Ph.D. in Life Sciences, Specialization in Physics of Biology

Mar. 2019 – Feb. 2024

University of Geneva, Geneva, Switzerland

MS Electrical Engineering (Electronics) -- 3.58/4.00

Feb. 2014 – Feb. 2016

COMSATS Institute of Information Technology, Islamabad

BS Electrical Engineering (Electronics) -- 3.23/4.00

Sept. 2008 – Sept. 2012

The University of Faisalabad, Faisalabad
