

Pediatric Radiology

The Department of Radiology at Stanford University and Stanford Children's Health is seeking a pediatric radiologist to lead pediatric interventional radiology and additional radiologists in pediatric neuroradiology, fetal imaging, pediatric nuclear medicine, and pediatric radiology to join the faculty within the Division of Pediatric Radiology. This full-time position will be open rank in the University Medical Line or Clinician Educator Line.

The major criteria for appointment for faculty in the University Medical Line is excellence in the overall mix of clinical care, clinical teaching, scholarly activity that advances clinical medicine, and institutional service appropriate to the programmatic need the individual is expected to fulfill. The major criterion for appointment as Clinician Educators is excellence in the overall mix of clinical care, teaching, administrative and/or scholarship appropriate to the programmatic need the individual is expected to fulfill. Academic rank and line will be determined by the qualifications and experience of the successful candidate.

The applicant must have an M.D., D.O., or M.D./Ph.D. degree(s) or equivalent, must be board-certified or board-eligible in clinical specialty, and must have completed a formal clinical training or equivalent training/experience. This position can be flexibly tailored to match clinical/research/leadership expertise and interests, and additional subspecialty clinical training can be provided.

Stanford University and Stanford Children's Health are committed to improving pediatric and maternal healthcare through excellence in image-based clinical care, education of future radiologists, and translational research. A full range of primary through quaternary services is provided across 65 locations and with over 500,000 annual patient visits. With over 150 specialties, Stanford Children's has multiple centers of emphasis: include Brain and Behavior, Cancer, Heart, Orthopedics and Sports Medicine, Pulmonary Biology, Pregnancy and Newborn Services, Transplant. Pediatric Radiology and Stanford Children's Health are currently undergoing significant expansion. Lucile Packard Children's Hospital (LPCH) at Stanford has state-of-the-art imaging equipment and is located on the world-class Stanford University campus, creating an unparalleled academic environment and close interactions with a variety of students and disciplines.

Please apply on-line at <http://radiology.stanford.edu> by submitting your curriculum vitae and a candidate statement describing your clinical, teaching, and research activities and interests. The Radiology Department, School of Medicine and Stanford University value faculty who will help foster an inclusive academic environment for colleagues, students, and staff with a wide range of backgrounds, identities, and outlooks. Candidates may choose to include as part of their research and teaching statements a brief discussion about how their work and experience will further these ideals. Additional information about Stanford's IDEAL initiative may be found here: <https://ideal.stanford.edu/about-ideal>.

The expected base pay range for this position is:

Specialty #1: Pediatric Neuroradiology

Assistant Professor: \$405,000 - \$423,000
Associate Professor: \$438,000 - \$456,000
Full Professor: \$476,000 - \$503,000

Specialty #2: Pediatric Interventional Radiology

Assistant Professor: \$405,000 - \$423,000
Associate Professor: \$438,000 - \$456,000
Full Professor: \$476,000 - \$503,000

Specialty #3: Pediatric Radiology

Assistant Professor: \$405,000 - \$423,000
Associate Professor: \$438,000 - \$456,000
Full Professor: \$476,000 - \$503,000

This pay range reflects base pay, which is based on faculty rank and years in rank. It may not include all components of faculty compensation or pay from participation in departmental incentive compensation programs. For more information about compensation and our wide-range of benefits, including housing assistance, please contact the hiring department.

Stanford University has provided a pay range representing its good faith estimate of what the university reasonably expects to pay for the position. The pay offered to the selected candidate will be determined based on factors including (but not limited to) the experience and qualifications of the selected candidate including equivalent years in rank, training, and field or discipline; internal equity; and external market pay for comparable jobs.

The pay offered to the selected candidate will be based on their field or discipline. Interested candidates whose discipline is not listed above may contact the hiring department for the salary range specific to their discipline/specialty.

Stanford is an equal employment opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other characteristic protected by law. Stanford also welcomes applications from others who would bring additional dimensions to the University's research, teaching and clinical missions.
