

MRI Scientist Position at the University of California Davis

The **Imaging Research Center (IRC)** at the **University of California**, **Davis** is pleased to announce an opening for an MRI scientist position. This is an exceptional opportunity to join a multidisciplinary team dedicated to advancing imaging research and technology.

Position Overview

UCDAVIS

ΗΓΔΙΤΗ

The successful candidate will:

- Lead and participate in innovative research projects in imaging science.
- Develop and implement advanced imaging methodologies and technologies.
- Collaborate with a team of experts across neuroscience, medicine, and engineering disciplines.
- Contribute to the management and development of state-of-the-art imaging facilities.

Qualifications

Applicants should have:

- An advanced degree (MS, PhD) or equivalent degree in imaging science, biomedical engineering, or a related field.
- A proven record of research excellence, as evidenced by publications.
- Strong communication and collaborative skills.
- A demonstrated commitment to diversity, equity, and inclusion in research and education.

Why UC Davis?

UC Davis is internationally recognized for its research excellence and collaborative environment. The Imaging Research Center offers:

- Access to cutting-edge MRI technologies and resources.
- Opportunities to work on high-impact, interdisciplinary projects.
- A supportive academic and research community.
- An outstanding quality of life in Northern California, with proximity to cultural and natural attractions.

Position Details

- Location: Sacramento, California
- Application Deadline: Open until filled
- How to Apply: <u>Click here to apply</u>
- More information: <u>https://health.ucdavis.edu/irc/</u> or contact Abhijit J. Chaudhari, (ajchaudhari@ucdavis.edu)

About the Imaging Research Center

The IRC was established at the University of California at Davis to support MRI research and promote the use of modern MRI-based methods in basic science and clinical investigations of the brain and body.
